

Curriculum vitae

Personal data

Name: Prof. emeritus Dr. István SZÚCS

Office: University of Miskolc, Faculty of Materials Science and Engineering, Institute of Energy and Quality,
e-mail: tuzsi@uni-miskolc.hu Phone: +36 46 565 104, Mobile phone: +36 30 65 77 956
Website: <http://www.combustion.uni-miskolc.hu/>

Employments at the University of Miskolc

1970-1978	assistant
1978-1984	senior lecturer
1984-2005	university lecturer (docent)
2005-2016	professor
2016-	professor emeritus

Leading posts

1995	dean of Metallurgical Faculty
1996-2004	director of Institute of Energetics and Silicate Engineering
1999-2002	head of Department of Combustion Technique
2006-2010	pro-rector of educational affairs, University of Miskolc

Scientific degree

1982	candidate of technical sciences (Hungarian Academy of Sciences, TMB No 9624)
1997	Ph.D. 89/1997 (University of Miskolc)
2005	university habilitation (No 92/2005, University of Miskolc)

Scientific activities

combustion technique
biomass burning
combustion technique of hazardous waste materials
thermal utilisation of waste materials
air cleaning processes
decrease of emission of solid air pollutants
transmission processes of air pollutants
boilers, high temperature equipments
furnace of metallurgical, chemical and silicate industry
utilisation parameters of refractory materials
wearing processes of refractory lining of high temperature equipment

Professional experiences abroad

1974-1978	scientific researcher (aspirant to candidate's degree) in Moscow Institute of Steel and Alloys
July, 1982	1 month industrial study in Zaporozhstal Ironworks
October, 1985	two weeks research work in Technical University of Ostrava (Vysoka Škola Bařska, on theme: decrease of brown fume formation in oxygen converters)
July, 1986	1 month industrial study in Novolipetsk Ironworks
june, 1991	3 weeks industrial study in Easter Slovakian Ironworks (Wyhodoslovenky Zhelezarny) in Košice, on theme: refractory lining of coke-oven
march, 2008	one week in research center "Salut" in Moscow, on theme: thermal utilization of biomass

Visiting professor abroad universities

January, 1995	two weeks lecturer in Academy of Mining and Metallurgy TU Freiberg, Faculty of Machinery (Themes: Air cleaning; Mathematical modelling of transmission processes of air pollutants)
September, 1995	two weeks lecturer in Technical University of Ostrava (Vysoka Škola Bařska, on theme: Increase of mechanical strength of refractory concretes)
October, 1999	two weeks lecturer TU Košice, Metallurgical faculty, on theme: Mathematical modelling of transmission processes of air pollutants

may, 2002 two weeks lecturer in TU Katowice, on theme: increase of efficiency of metallurgical furnaces

Membership

1980-1990	secretary of Metallurgical Committee of Hungarian Scientific Academy
1990-2002	member of Automation Committee of Hungarian Technical and Natural Scientific Association
1997-2000	member of Environmental Protection Committee in Miskolc of Hungarian Scientific Academy
1998-2011	member of Scientific Association of Machine Engineers
2000-	member of International Flame Research Foundation (IFRF)
2000-	expert of Grant Agency of Czech Republic (GACR)
2000-2003.	member of Hungarian Committee of World Energy Council (WEC)
2004-	member of Hungarian Section of Combustion Institute (HSCI)
2005-	editor of energetical section of Journal Building Materials
2006-2008	president of Technical Committee of Hungarian Rector's Conference
2010-	member of Metallurgical Committee of Hungarian Scientific Academy

Published reports

Books and passages in books	15
Printed publications	257
Co-author of hungarian patents	21
Co-author of international patents	2
Conference lectures	184

The most relevant publications

V. Zs. Baranyai, F. Kristaly, I. Szűcs: Low temperature rehydration of thermally dehydroxylated Bayer–gibbsite, evolution and transformation of phases, *Journal of Thermal Analysis and Calorimetry*, (2017) Volume 129, Number 3, pp: 1353-1365, ISSN 1388-6150

Baranyai V. Z., Kristály F., Szűcs I.: Influence of grain and crystallite size on the gibbsite to boehmite thermal transformation. *Studia UBB Chemia*, LX 2. 2015, 60(2), Tom 1, pp: 27-44, ISSN 1224 7154
